## **DESICCANT CLAY**

Date of issue: 31 01 2018 Revision date: 03 09 2019 Version: 5.0 **SECTION 4: First aid measures** 4.1. Description of first aid measures : Get medical advice/attention if you feel unwell. If possible show him this sheet. Failing this, First-aid measures general show him the packaging or label. Never give anything by mouth to an unconscious person. Place the affected person in the recovery position. First-aid measures after inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Remove affected clothing and wash all exposed skin area with mild soap and water, First-aid measures after skin contact followed by warm water rinse. First-aid measures after eve contact : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing First-aid measures after ingestion : Rinse mouth. Drink plenty of water as a precaution. 4.2. Most important symptoms and effects, both acute and delayed Symptoms/injuries : Not expected to present a significant hazard under anticipated conditions of normal use. 43 Indication of any immediate medical attention and special treatment needed Treat symptomatically. SECTION 5: Firefighting measures Extinguishing media 5.1. Suitable extinguishing media : Adapt extinguishing agents to the environment. Carbon dioxide. Dry extinguishing powder. Water spray. For a significant fire: Alcohol resistant foam. Unsuitable extinguishing media : Do not use a heavy water stream. 52 Special hazards arising from the substance or mixture Fire hazard : The product itself does not burn. 53 Advice for firefighters **Firefighting instructions** Use water spray or fog for cooling exposed containers. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection. SECTION 6: Accidental release measures Personal precautions, protective equipment and emergency procedures 6.1. : Provide adequate ventilation. Do not breathe dust. Avoid dust formation. General measures 6.1.1. For non-emergency personnel Emergency procedures : Evacuate the danger area. 6.1.2. For emergency responders Protective equipment : Wear suitable protective clothing. Self-contained breathing apparatus 6.2. **Environmental precautions** Prevent entry to sewers and public waters. 6.3. Methods and material for containment and cleaning up On land, sweep or shovel into suitable containers. Take up mechanically (sweeping, Methods for cleaning up shovelling) and collect in suitable container for disposal. Dispose of in accordance with relevant local regulations. 6.4. Reference to other sections Concerning personal protective equipment to use, see section 8. Concerning disposal elimination after cleaning, see section 13. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling : Ensure good ventilation of the work station. Avoid dust formation. Handle in accordance with good industrial hygiene and safety procedures. Contaminated work Hygiene measures clothing should not be allowed out of the workplace. When using do not eat, drink or smoke. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Take off contaminated clothing and wash it before reuse. 7.2. Conditions for safe storage, including any incompatibilities Storage conditions Store in original container. Store tightly closed in a dry and cool place. Never return unused material to original container. Keep container closed when not in use. 03.09.2019 EN (English) 2/7

### 7.3. Specific end use(s)

No additional information available

### **SECTION 8: Exposure controls/personal protection**

Bentonite (1302-78-9)		Durte man sife	
		Dusts non-specific	
Ireland OE	EL (8 hours ref) (mg/m³)	10 mg/m <sup>3</sup> (total inhalable dust) 4 mg/m <sup>3</sup> (respirable dust)	
United Kingdom Lo	cal name	Dust	
- 5	EL TWA (mg/m <sup>3</sup> )	10 mg/m <sup>3</sup> (inhalable dust)	
	(	4 mg/m <sup>3</sup> (respirable dust)	
8.2. Exposure controls			
Appropriate engineering controls	: Provide local exhaust or ger	neral room ventilation to minimize exposure to dust.	
Hand protection	Natural rubber. ≥ 0.35 mm.	d, wear suitable gloves (EN 374). Nitrile rubber, Butyl rubber, The exact break through time has to be found out by the ve gloves and has to be observed.	
Eye protection	•	d, wear safety glasses (EN 166).	
Skin and body protection		d, wear suitable protective clothing.	
Respiratory protection	: No respiratory protection ne	o respiratory protection needed under normal use conditions. If the occupational exposure nit is exceeded or dust production: dust mask with filter type P1 (EN 143).	
SECTION 9: Physical and c	• •		
	vsical and chemical properties		
Appearance	: Solid. Beige, grey granules		
Odour	: Odourless		
Odour threshold	: Not applicable		
pH	: 8.0 (20 °C, aqueous suspen	sion)	
Melting point/freezing point	: >450 °C		
Initial boiling point and boiling range	: No data available		
Flash point	: Not applicable		
Evaporation rate	: No data available		
Flammability (solid, gas)	: Not flammable		
Upper/lower flammability or explosive			
Vapour pressure	: Not applicable		
Vapour density	Not applicable		
Relative density	: No data available		
Density	: 2.6 g/cm <sup>3</sup>		
Solubility(ies)	: Water: < 0.9 g/L (20 °C)		
Partition coefficient: n-octanol/water	: No data available		
Auto-ignition temperature	: Not auto-flammable		
Decomposition temperature	: No data available		
Viscosity	: Not applicable		
Explosive properties	: Not explosive properties		
Oxidising properties	: No oxidising properties		
9.2. Other information			
Bulk density	: 925 - 950 kg/m³		
SECTION 10: Stability and r 10.1. Reactivity No dangerous reactions known unde	-
